# Mitratech Compliance Manager

## The CMO Mobile App

### Get real-time proof of compliance with the CMO mobile app

The mobile app streamlines the data collection process with customizable forms - field teams can complete reports right on the app and send them back to the main office in real-time. No more waiting around for reports to trickle in. Additionally, compliance teams no longer have to manually import the data by hand, saving time and improving the quality of the data by reducing manual errors. It's real-time risk management at your fingertips.

- No more paper forms
- Reduce data entry errors
- Real-time feedback from field teams

### Benefits of the CMO mobile app include:

-  **Easy Implementation** - forms can be designed to simplify data entry in the field
-  **Native Mobile Application** - use features of mobile device (camera, microphone, GPS) to capture data more efficiently
-  **Full Offline Capability** - log incidents, audits, assessments in areas of no mobile or WiFi coverage
-  **Accessible** - a true mobile app, not just a mobile optimized browser, available on iOS, Android, and Windows devices

### Risk management for any industry at your fingertips

The CMO mobile app is used in a variety of industries to solve compliance and risk management challenges.

- A global asset management firm audits and raises incidents across their various buildings that they manage
- A multi-national shipping company completes safety inspections and logging incidents while at sea
- A global facility management firm conducts spot audits and gathers signoff signatures from supervisors in the field
- A major oil and gas firm conducts environmental inspections and tags evidence photos at their locations, even the most remote sites
