MITRATECH

EnterpriseInsight™: Healthcare Risk Management Simplified

Assess your risks and controls while tracking compliance, audits and issues

Whether you're a hospital, health services, medical device or pharmaceuticals company you're exposed to increasing regulatory scrutiny every year.

EnterpriseInsight™'s configurable framework design makes it easy to measure, relate and aggregate any type of risk.

Best of all, EnterpriseInsight™ can be implemented in 90 days or less and costs less than a single employee.

EnterpriseInsight™ can come pre-configured with risk management frameworks, like EnterpriseInsight™ HCR, which manages risks related to:

PATIENT SAFETY

PATIENT DEMOGRAPHICS

PAYER ACCREDITATION

EnterpriseInsight™

- Enterprise Risk Management
- Governance, Risk, Compliance (GRC)
- HIPAA, FDA & DHR Compliant,

WHY YOU MIGHT NEED A SOLUTION

Vendor Risk Management

- Organizations that lack an overarching strategy to measure and track documents and certifications
- Organizations with responsibilities for confidential, sensitive, proprietary or classified information and that trust third-parties to handle that data.
- Businesses that are inconsistent in their application of vendor selection, managemnt and evaluation criteria.
- Companies lacking the staff or resources to keep up with the increasing demands of regulations.

Enterprise Risk Management

- Organizations that have uncertainty regarding their compliance with regulations, audits and corporate policies
- Businesses that need to align activities to business goals, manage risk and stay on top of compliance
- Companies that aren't managing risk across the product lifecycle and risk associated with critical vendors
- Companies lacking staff or resources to address GRC concerns while staying on top of industry best practices including ISO Standards
