

## Mitratech x Black Kite

### Supercharged Cyber Risk Assessments

## Black Kite Cyber Risk Management

Black Kite places business at the center of cyber risk. For cyber risk professionals looking to quantify and maintain visibility of their risk exposure, Black Kite provides a defensible platform that spans the entirety of the third-party risk management lifecycle.

#### Cyber Risk Quantification

Know the financial impact of potential breaches for each vendor.

#### Third-Party Risk Management

Understand which vendors pose the highest risk for your organization.

#### Security Ratings

Quantify and maintain visibility of your cyber risk exposure with comprehensive, letter-grade scoring.

## Mitratech x Black Kite

Looking to accelerate your third-party risk management program? Applying Black Kite's cyber security capabilities across your vendors base provides you with:

#### Proactive Risk Mitigation

Identify and correct vulnerabilities before an incident occurs.

#### Continuous Monitoring

Receive alerts as a vendor's security posture improves or declines.

#### Self Assessments

Review your own environment for potential weaknesses. Think like a hacker! Where are you exposed?

## BLACK KITE

Black Kite complements Mitratech's GRC platform by offering a multidimensional view of third-party risk, showing weaknesses in your supply chain from a technical, financial and compliance perspective. Furthermore, they also offer the world's first and only [Ransomware Susceptibility Index™](#), indicating how likely it is that an organization will experience a ransomware attack.

## Unique Value Drivers

### ✓ Technical Cyber Risk Score:

The Black Kite cyber risk rating enables organizations to self-monitor their cyber risk posture and perform non-intrusive cyber risk assessments and continuous monitoring of suppliers or investment targets.

### ✓ Risk in Financial Terms:

Black Kite uses the OpenFAIR™ model to calculate the potential financial impact (risk) to an organization in the case of a cyber event. OpenFAIR™ is currently the only international standard for quantifying cyber risk.

### ✓ Questionnaire & Compliance Correlation:

Black Kite correlates findings to industry standards and best practices, enabling an estimate of the external compliance for a range of standards including NIST 800-53, ISO27001, PCI-DSS, HIPAA, GDPR and Shared Assessments.
