- By providing a single source of truth across multiple practice areas (or even the entire company), TeamConnect helps you make data-driven decisions and reach KPIs that create real long-term value.
- Drive efficiency and precision in your legal processes, reducing costly wage hours, delays, and errors.
- Enjoy integrated matter management, outside counsel management, optimized e-Billing, reporting and more, using an adaptable solution with built-in best practices.

# Why TeamConnect?

Here's how legal leaders put TeamConnect to work:

“We did notice dramatic improvements in our data quality and our standardization of processes. The e-Billing implementation alone saved us an average of about 6.7% on legal invoices. In some areas, those cost savings were even higher. The way we funded the project was with that 6.7% return on investment.”

**Brian McGovern, AIG**

“What's especially helpful is knowing that we can adapt the system to meet any new or revised internal or regulatory measures down the road.”

**Danette Gallatin, Williams Company**

“We have a secure, auditable process right up to the point where we cut the check.”

**David Cambria, AON**

“Mitrastech's solution is light years ahead of other vendors. We also wanted to deal with only one vendor, and there aren't many vendors that do both matter management and e-Billing and do them both well.”

**Lisa Cannone, Express Scripts**

“We see strong adoption by the responsible in-house counsel. They like it because they are able to get to the level of control and granularity they need in order to manage their cases.”

**Tony Moss, British American Tobacco**

“We now have the ability to see the entire legal department on a single platform.”

**Ken Whittaker, McDonald's**
